

CMU Dining Locations

67-240

Spring 2018

We are Mimi, Roxanne, and Malik

We are working with CMU Dining Services to redesign the Dining Locations page on the Dining Services website.

Context and Problem

Context

User Groups

- Current students
- Faculty and staff
- Prospective students and parents

Content

- Dining locations
 - Hours of Operation
 - Physical location
 - Descriptions
 - Daily soups/specials
 - Etc.

Problem

1- Content Organization

- Large volume of information -> high cognitive load
- Overwhelming to users

2- Responsiveness

- Functional and user friendly mobile version
- Issues:
 - Extensive scrolling
 - Non-intuitive links/buttons
 - Poor navigation design

Development

Process Documentation - Key Interactions Timeline

*March 30th
Client
Meeting
#1*

*April 3rd
User Testing
Round 1*

*April 10th
Client
Meeting
#2*

- Discussed expectations, recommendations, and specifications
- Developed plans for user-testing

- Testing on current site
- Analyzed the outcomes

- 2nd meeting with clients
- Got feedback for current wireframes

Process Documentation - Key Interactions Timeline

*April 11th
User Testing
Round 2*

*April 25th
User Testing
Round 3*

*April 30th
Client
Meeting
#3*

- Testing on low fidelity wireframes

- Updated wireframes based on results

- Testing on refined wireframes

- Updated wireframes again, began site development

- Discussed user testing results

- Got feedback for final wireframes

Process Documentation - Key Interactions Timeline

- Testing on first version of working site
- Testing and feedback on updated site

User Testing Results

What key issues did we find with the original site? How can we address them?

User Testing Results

Task-Oriented Testing

Tasks: 1- Find Menu (Subways) 2- Soups (The Exchange) 3- Opening Hours (iNoodle)

- Roughly 50% of our overall users used search bar for Task 1
- 66% of the users clicked 'Today's Soups' for Task 2
- Approximately 50% of users used search bar for Task 3

User Testing Results

Key Issues Found in General Behavior Testing

- Larger & more visible search bar
- Stronger color contrast
- Font style
- White space unevenness

Solutions

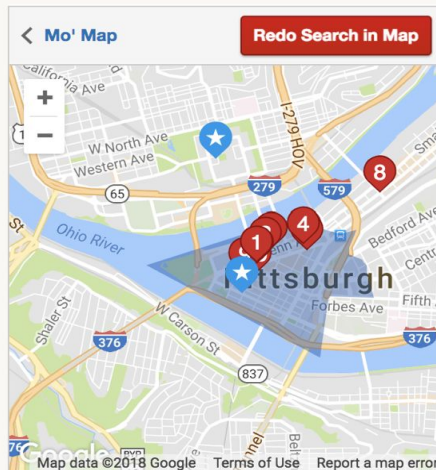

- Make the entire blocks clickable and remove More Info.
- Revise colors and fonts
- Display available restaurants at the top.
- Implement revised filter
- Information hierarchy
- Interactive map

Refined Wireframes

Future Steps

Future Steps

- Embedded/current interactive map
- Redesign Hours of Operations page
 - Other linked pages
- Relevant images of each location
- Expandable cards
- Improving clarity of restaurant availability
- Additional features
 - Favorite/bookmarked restaurants
 - Easier online ordering process

THANKS!

Any questions?
